STATE OF GEORGIA EXPANDS CONSUMER PROTECTION FOR SOLAR CUSTOMERS

Beginning July 1, 2023, Georgia Law has expanded consumer protections for consumers installing solar power systems. The added protections include a 30 business-day cancellation right for those sales that include payments above \$10,000.00, or involve a lease longer than 120 months, and are eligible, or are alleged by the seller or seller's representative to be eligible, for federal tax credits.

When thinking about installing Solar power in your home, The Georgia Attorney General's consumer protection division also recommends consumers:

- Look for ways to reduce energy use.
- Make your home and appliances more energy efficient.
- Ensure your home is properly weatherized.
- Evaluate how you use energy.

Colquit EMC can help you evaluate your energy use with a free in-home energy audit and solar power assessment.

For more information, visit the Georgia Attorney General's Consumer Protection Division's website, <https://consumer.georgia.gov/solar-power-your-home>.

BURN WITH CARE... AVOID TROUBLE.

ATTENTION: Use firebreaks around any utility poles on land that will be burned under controlled conditions. By using a firebreak to protect utility poles, you can help Colquitt EMC save thousands of dollars in repair costs. Also, you can avoid potential safety problems from burned poles.

-Thank you in advance for your cooperation.
